

# 3D Projector CF3D

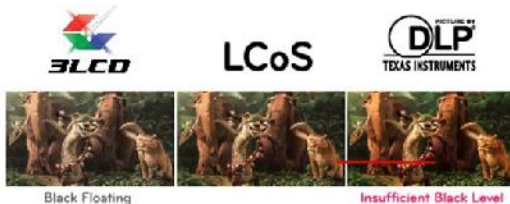

## One Body Dual Engine + Passive Glasses

World Top class Technology to adopt just one Lens even though 2 Engines & 2 Lens.  
(Full HD 3D @ 2,500Ansi) & (Full HD 120Hz 2D @ 2,500Ansi)

## 3D Auto Picture Calibration Algorithm

Maximize 3D effects by auto-adjusting brightness of left & right Image through the built-in camera.

## Superior Picture Quality

The LCoS Panel has strengths and advantages of both DLP (high contrast ratio) and LCD (natural color) technology.

## High Brightness

2,500Ansi high Brightness 3D provides you lots of usages in various environments.

## TruMotion 120Hz

LG's Advanced Trumotion 120Hz technology provides clear, smooth images.

CF3D

## **Superior Picture Quality**

Full HD (1,920 x 1,080)  
0.61" SXRD 6 Panel  
2,500 ANSI Lumens  
7,000:1 Contrast Ratio  
Trumotion 120Hz (2D)  
Real Cinema 24P

## **3D Technology**

Dual Engine Single Projector  
Passive Type Glasses  
3D Auto Picture Calibration

## **Target Customer**

Small, Medium Size Hall &  
Public Sector  
Education / Medical Institution  
Military Simulation Rooms / etc.
