Introducing the brand new LG T10 Touch Screen Monitor

Our new T10 Touch Screen Monitors are a perfect solution everywhere from restaurants and leisure centres to boardrooms and ticket offices.

Available in 17" and 19" sizes, the launch of these sturdy and durable single-touch monitors is in response to increased customer demand and follows the success of our touch-screen phones.

These units are appropriate for larger and more specialised sales opportunities and are consequently available on a pre-order basis only.

Main selling points include:

- Superior XGA resolution
- Convenience and intuitiveness consumers expect
- Solid, hard-wearing design
- Highly accurate touch interface
- Windows/Linux compatibility
- Fast response time, high resolution
- Easy installation
